

William Frothingham is Sheriff
A rescript handed down from the law court on Friday in the equity suit of William O. Frothingham vs. Frank R. Woodside declares that William O. Frothingham received a plurality of all the ballots cast for sheriff of Oxford County at the state election in September, 1922, and is therefore entitled to the office. He took the oath of office Monday morning at the Supreme Court in Rutland and attended upon his duties.

Will your car match these Oakland Upkeep Figures?

Accurate records kept by Oakland in Cleveland showed an average upkeep cost on Oakland 6-44's of

\$8.06 per year

Oakland "6"

The "Mileage-Basis" Plan

Main Bearings—40,000 miles or more without attention.
Valves—15,000 miles or more without need of grinding.
Connecting Rods—40,000 miles or more without attention.
Cylinders, Pistons, Rings—Guaranteed in writing 15,000 miles.
Gas Mileage—20 to 25 miles per gallon.
Tires—15,000 to 25,000 miles per set.
Transmission, Axles, and Major Parts—Life of the car.

IF YOU would know the quality of a motor car—look to its upkeep costs! In Cleveland last year it cost an average of only \$8.06 per year for upkeep on Six-44's! Other cities and towns report similarly low averages!

Another excellent indication of quality is found in a motor car's resale value. Try to buy a used "Six-44"—and you'll be surprised at the high price it commands.

These definite and actual evidences of the superior quality of the Oakland car explain why Oakland is enabled to offer its remarkable "Mileage-Basis" Plan!

Before you buy a car—come in and see the Oakland! You will find it beautiful, comfortable, powerful and genuinely economical—and you'll know the minimum number of trouble-free miles you can expect it to give you!

NOTICE OF FORECLOSURE OF MORTGAGE

Whereas Frank L. Miller, of Brownfield in the County of Oxford and State of Maine, did on the ninth day of August, 1919, by his mortgage deed of that date duly executed, acknowledged and recorded in Oxford Western District Registry of Deeds in Book 109, Page 241, convey in mortgage to Charles E. Whitman, then of said Brownfield but now deceased, a certain lot or parcel of land with the buildings thereon, situated in said Brownfield, and bounded as follows:

Lotting on both sides of the road leading from Fryeburg to East Brownfield village the present homestead farm of said Miller and the same conveyed to him by Freeman H. Day by deed of December 24, 1912, recorded in said Registry in Book 103, Page 249, and bounded on the north by land of heirs of the late Loring B. Allen, on the west by said Giles land, on the south by land of E. E. Phillips, land of E. D. Walker and land of G. G. Mansfield, and on the east by Saco River.

And whereas the conditions of said mortgage have been broken,

Notice is hereby given that I claim a foreclosure of said mortgage in accordance with the statute in such cases made and provided.

Dated at Brownfield this 30th day of April, 1923.

CHANGE OF LIFE LOSES TERRORS

For Women Who Rely upon Lydia E. Pinkham's Vegetable Compound

Greenville, Pa.—"I took your medicine through the Change of Life and it did wonders for me."

I was down in bed when I started to take it and weighed 95 pounds. I had hot flashes and was so nervous and weak that everything would get black and I could not see. I would sit and cry and did not know what I was crying for. Since I have been taking Lydia E. Pinkham's Vegetable Compound I feel younger than I did ten years ago, and my friends all tell me I look younger, and I owe it all to the Vegetable Compound. I do all my housework for a family of seven now. I will be glad to answer any woman who writes me in regard to my case."—Mrs. JOHN MYERS, 55 Union St., Greenville, Pa.

Many letters similar to this have been published testifying to the merit of Lydia E. Pinkham's Vegetable Compound. They are sincere expressions from women who describe as best they can their feelings before and after taking this well-known medicine. Many times they state in their letters their willingness to answer women who write them. It is an offer dictated by gratitude and a desire to help others.

Where Are You Bound? In our Union Suits there is no binding

Every wearer of underwear knows that when a Union Suit takes the notion into its seams to pinch, that it can be as binding as a first mortgage.

But every man who wears one of our Union Suits knows that it couldn't bind if commanded by the government.

The difference is in the fit—and here you have the reason why we sell so much Underwear year after year.

But the point is—if you buy one of our union suits you're bound to get a fit. They are priced right.

SPECIAL NOTICE TO OUR READERS

We want to give to our readers all the news of interest throughout Oxford County.

People are interested in the home news and that is the kind of news the Norway (Oxford County) Me., Advertiser wants each week to give its readers.

There are readers in the home town and there are readers who visit our town annually and there are others who live out of town who are exceedingly anxious to read the doings of their friends and acquaintances back home.

Send us the news, give us account of the gatherings of a public nature and otherwise, the accounts of the family parties and guests in the home. There are many local happenings that would be of interest. Hand to the regular correspondent of your town or send direct to the Advertiser office with the name of the sender.

We want all the home news and with your assistance we shall be able to make the Advertiser the home paper that it aims to be.

People who have once lived in our midst and who have now moved to other places frequently write us that the paper is like a "letter from home" or "second like the face of an old friend." The very news item which you might send in will help to make the "weekly family letter" of more interest. Send it in.

DENMARK

Brine-Osgood
A quiet but pretty wedding occurred at the home of the officiating clergyman in Bridgton on Tuesday, May 15th when Miss Laura Osgood became the bride of Arthur Brine. Both young people reside in Denmark. The single ring service was impressively read by Rev. W. A. Richmond of the Congregational Church. Immediately after the ceremony Mr. and Mrs. Brine left for parts unknown.

No Joke.
Success, were told, requires hard work. And that, no doubt, is true enough. Still, to make good, you're gonna find. You also need a lot of bluff.

Evidently.
"Dat Ann Eliza done got eight families to wash fur."
"She needs a husband to manage her intrusts."

Millettville and Crockett Ridge Crockett Ridge School to Give Operetta

Everyone has at some time in their life loved to hear about the fairies. We are all to have an opportunity to really see fairies in their leafy dell and hear them sing and talk and see them dance on Tuesday night, May 22, at the grange hall in Norway. A little boy called Frederick goes in search of the fairy rose that its fragrance and beauty may revive his dear old grandmother, who is very ill, and he meets with all the fairy folks from the Little Green Man and Shadow and Sunshine to the Fairy Queen and all her attendants, grasshopper, butterfly, freely and humming bird included. There is a wonderful Fairy Ball and Little Frederick gains the Fairy Rose and proves that "your Grandmother knows."

No one will want to miss this delightful little entertainment and help the scholars to earn some money to use in improving their school.

Noble's Corner

Mrs. W. F. Young and daughter Wilma, Mrs. Rust Jackson and daughter, Doris Bradley, and Mrs. Sol I. Jackson and daughter, Mrs. Marion attended the mother and daughter banquet Wednesday evening at the Grange Hall.

Mrs. Young and Mrs. Sol Jackson attended the Educational Meeting at the Grange, Saturday, and heard Miss Hale's fine talk.

Mr. and Mrs. G. L. Stromblad of the Kelleman Acetylene Co., Orono, Ky., are stopping at Mrs. Harry Millett's for a few weeks while he is canvassing the territory.

Harry Millett has signed up for a gas light plant, to be installed as soon as the express comes, so has S. I. Jackson, this side of the lake.

Miss Verna Westleigh was at home for the week end from Gorham Normal School.

James Mitchell, selectman of Milton, Mass., and Mrs. Mitchell were week end guests of Mr. and Mrs. Rust Jackson, Mrs. Mitchell remaining until Wednesday.

Miss Velzora Field of Oxford, who taught in Millettville three years ago, called on Mrs. Frank Millett's family, Sunday, and Mr. and Mrs. Ernest Nasson were callers.

Mr. and Mrs. Percy Walker are enjoying their week end trips at Red Oak Cottage opposite Green Elms in Millettville. Mr. Walker is having between 400 and 500 apple trees set on the farm this spring. George Westleigh has charge of the work.

Messrs Harwood and Herbert Holt are stopping with Sol Jackson and pressing hay at the Jackson Bros. farm.

May basket hangers make the nights merry this week.

Mrs. Lucy Cushing of Mason spent a few days with her nephew and niece, Mr. and Mrs. George Westleigh, this week.

Eva Marion Jackson has started a stock farm; having a cosslet lamb called Beauty, 5 weeks old, a tiny 4 weeks old pig called Spunky (for if she hadn't been she wouldn't have lived) and some baby chicks. She also has two beauty kitties called Buttercup and Daisy from their yellow and white coats.

Harvester for Sugar Beets.
Harvesting sugar beets has been facilitated by the invention of an Illinois man, and consists of a machine that tops, digs and boxes the product, according to the October Popular Mechanics Magazine. In operation, two shoes slide along the surface of the ground and carry a cutter which cuts the beet top at the required height, throwing the severed portion to one side. Following the topper, comes a digger, or uprooter, which removes the beet from the ground and carries it to the rear, where it is deposited in a box or basket.

Real Carefulness.
A St. Louis girl who went to Meramec highlands for a swim was seen to stand on the end of the diving board and assume the correct position for a dive when she noticed that she had forgotten to remove her wrist watch. She stepped back, took off the timepiece, placed it in the pocket of her bathing suit and plunged into the water.

Gum-Dipped Cords Gaining New Fame for Service 194% Sales Increase in Last Six Months Shows Trend Toward Firestone

The public has emphatically spoken. The popular preference in all territories is unmistakably the Firestone Gum-Dipped Cord.

A standard of service has been set by these famous tires without parallel in the past. It has brought a sales increase of 194% for the past six months over the same period of a year ago—the greatest gain in all Firestone history.

The Firestone Gum-Dipped Cord is the mighty achievement which has enabled Firestone to break the tremendous record of past Firestone success.

The tire buying public has been aroused to the

results in economical mileage of the Firestone process of double gum-dipping. The buying-swing toward Firestone shows how it has advanced the public's standard of tire value.

Ask owners about Firestone performance on their cars. Note the big taxicab fleets Firestone-equipped. Watch the new cars you see—just from the factories; Firestone Gum-Dipped Cords are seen everywhere in fast increasing numbers.

Get the maximum extra mileage that only the Firestone name assures you. Only by insisting on this name can you be sure of getting the genuine gum-dipped construction.

NORWAY ADVERTISER

LAST GREAT BATTLE
SURRENDER FOLLOWED

Written at Camp of 17th Maine April 26, 1865 to the late Ephraim Brown by A. G. Charles, husband of Mrs. H. B. Charles who is writing a series of interesting stories of Norway in the early days, being printed in this paper.

Friend Brown—At last I have commenced a letter, that I ought to have written months ago, but which for several reasons has been delayed till now. I believe I have received three letters from you since I have written, the first one just after we returned from the West last December and then we were so busy that I didn't write to hardly anyone, then I got one about the time I received my commission and I was thinking at the same time about going home and I was so uneasy and mixed up that I couldn't keep still long enough to write a letter, but now we have got through fighting for the present at least and have got over the bustle and fussing that always attends "going into camp." If you will excuse past neglect, I will try and make partial amends by telling you part of matters and things pertaining to the 17th Maine. When I returned from my leave of absence, I found they had sent all the extra Q. M. Stores to City Point and the settlers were ordered to leave in a few days. We got the long expected order on the morning of the 25th. We were ordered to pack to date and be ready to move immediately, so we packed up, but lay around all day before the order came to move. About five o'clock the order came to move. We went just outside our picket line and formed in the rear of the 1st Brigade (we had been transferred to the 2nd Brigade a few days before) and lay there until midnight when we returned to Camp. We lost two or three men by chance shots. We stayed in camp three days. When we started again, and this time meant Petersburg and Richmond, with Lee's army included, though little did we think what the results would be when we started. We went across Hatcher's Run at the same place where we crossed when we went to the "Bull Ring." I think we went about five miles before we formed the line of battle.

After we got our lines all connected we commenced to move forward. We found nothing to oppose us that day of any consequence and at night we had driven them from two lines of breast works. In the afternoon of the second day our skirmish line got in sight of their main line (and it proved to be the only one they had on the flank until we got within a mile of Petersburg). After the usual amount of marching and countermarching they got the lines fixed to suit them and we went to work and built breast-works. We layed there till midnight when they routed us out and we moved to the left, and the next day found us in the same old Bull Ring. The Rebels threw a few shells at us but there was no one hurt in our Regt. I was on picket one day and night while we lay here and you could see the Rebels works plain from the picket line. I thought then that we should have to go back to Camp without accomplishing our object for I knew we could never take the works by direct assault. They were not so strong as those in front of Petersburg but there was a large open plain in front of them and they had four lines of those picked sticks for us to get through. On the morning of April 2nd word came that the enemy was falling back and we were ordered to advance and take the works in front of us, so at that time we went but when we got there we found the Johnny's gone, but we kept on and went within a mile of Petersburg before we stopped. I tell you it seemed queer to be marching along the other side of those works that we had lain and looked at so long. We formed our line and built some works that afternoon. The next morning we got up to find the Rebels gone again, so we started after them. We marched three days before we found them.

On the morning of the 6th we hadn't gone but a short distance before we ran into the rear guard and then commenced one of the greatest fights on record. We formed our line of battle and moved forward. We soon came upon a small body of the Greys in a place called Centerville, but we charged on them driving them like sheep, capturing lots of prisoners, one cannon and some battle flags, and so we kept it up all day till just at sunset, we made one grand rush and got two pieces of Artillery, two hundred wagons and several ambulances. It was a little risky but it was fun. I tell you, we just kept those fellows on the run all day, and the road was strewn with everything you could think of. We lived tip-top, every house we came to the boys would clean it out, we got ham, flour, sorghum, hens, chickens, pigs and everything nameable in the eating line. The boys got any amount of clothing out of the grain. There was any quantity round with Major General's clothes on, we got some very nice blankets, the next day. They went about eight miles by Farmville but then came the rumors of the surrender, pretty soon Meade came back, and in a few minutes a Battery in the rear of us began to fire, then we knew it was true. In about a half an hour Meade came riding back with his Staff. He never said a word but rode around among the troops, with his mouth wide open and swinging his hat. You had ought to have been there then Eph. such a sight I never expect to see again. It seemed as though the men were crazy. Caps, haversacks and coats were thrown into the air by thousands, bands playing, cannon firing and flags flying. About dark we strung out a little and camped for the night.

We layed there the next day, and the 11th we started on the back track, it was very slow, hard work, the roads were badly cut up and it had rained just enough to make the mud stick good. We were three days getting here. We are about three miles from Berkville Junction, have got a nice camping

ground and are having a good rest, don't have any drills or anything of the kind. The Major said he shouldn't drill until he was ordered to, for he thought the men needed rest more than they did drill. The land is just about the same as when Charles was writing up the papers. A little fact or sooner or later the Nation will suffer. There are too many hasty marriages partly due to the contracting parties not giving the matter serious thought. The country is being filled with men and women whose lives have been blasted and all for the want of a little deep-seated thought and wisdom before marriage. Hasty and sudden marriages usually end with a family row, then the sudden and undreamed of departure of the emotional wife, then divorce.

Hasty marriage, false pride, no religion, immorality, deception and lies are the causes leading up to divorce. You find men who married when in poor or middle circumstances and who were very happy at the time, suddenly they reach high position of wealth, the social standing changes, pride gets the best of them, the good little wife is not good enough for him now, he seeks the company of other women, finally a crash comes, divorce follows and a blasted home is the result. There are many cases of this type.

Jealousy and hate are both diseases and when these terrible monsters get into action something disastrous is sure to occur.

Many cases of divorce are due to the lack of interest in the home on the part of the newly and hastily wedded parties. Many times the wife has an inflated idea of her social and financial standing and creates more expense than her husband's income can stand, this results in dissonance between the husband's purse, then he begins to think he made a mistake when he married the girl and gradually the unexpected happens.

Any psychopathologist or alienist will tell you what a dreadful emotion jealousy is and I think people should fight against this demon and try hard to overcome its emotions, it is giving in to this and allowing it to master us that leads to the divorce courts in many cases.

People after marriage should try to fight against worry, which is nothing but fear, it is likely to bring personal misery, family trouble, discontent, lack of interest in the home and finally divorce. False pride is another curse eating the very heart and soul of many people, they do not want to be humble, they want to keep up with a false appearance and station in life way beyond their means.

About the worst individuals of them all are the persons, men or women, who are dissatisfied with life in general and who are always ready to carry tales to wife or husband, who are ever ready to put poison in the minds of others, who are always knocking some other person and using their vile tongues to blast some other more fortunate person, these black-malicious and scandal-mongers are the cause of many divorces; people should not listen to these devils but should cast them aside.

Then we find the half witted specimen of man degenerate who has no brains, but a great gift of oratory, who is always seeking the acquaintance of married women. He is like the wolf seeking to destroy the homes of happy people. His prey is the married woman; this scoundrel is a menace and the sooner society and the community at large get rid of him the better for all. I find this type of male is the cause of domestic troubles leading to the divorce courts.

About the worst scum of the earth I ever met. He is a coward at heart and a general all round failure. Fatigue brought on through worry and false living are in many cases causes leading up to the divorce courts. Many of the young women of the so-called high heel shoe. Many mental and physical troubles are caused by the use of these heels. Women get irritable, nervous, wrinkles appear on the face around the eyes and lips—the body has to stand in an unnatural position, they tire easily, have no ambition to work and loss of interest in things about them, this is false pride and is doing a lot of damage to the home and leading many to the divorce courts.

Divorce is getting to be serious in its spread, if you saw the cases that happen all around us you would weep. Artificial life is eating the very heart and soul of many people. I hope and pray that America won't become like Rome in the old days, Rome fell owing to the disappearance of the wholesome family life, and disregard for the teachings of the church. The wholesome family life is the very foundation of our Government and we need it more now than ever.

Unnecessary and greatly exaggerated details of divorce cases as published by certain newspapers, have a bad effect on the minds of many weak-minded people who soon fall victims to some form of temptation and finally land in the divorce courts.

I have traveled a great deal throughout America, Canada and Europe and I tell you right now I have never seen the divorce situation so bad anywhere as it is in this country at the present time.

Now that the women have the vote, I think the social structure will be greatly strengthened and improved and America saved from the cursed evil of divorce. From the Smithsonian Detective Service, Boston, Mass.

Got the Toll-Keeper's Goat.
A Dutchman riding a little cart drawn by a goat was stopped at the bridge by the toll-keeper.

"I got to pay toll?" said Hans.
"Yes," five cents to cross the bridge.

After an argument he paid the toll and went back again, only this time he had the goat sitting in the cart and he was drawing it himself. Out came the toll-keeper. "Here, you know you've got to pay five cents."

The Dutchman shook his head and pointing to the goat, said, "Don't talk to me—ask the driver."—Boston Transcript.

Mixed Religions.
Doctor Grenfell after amputating the limb of a Roman Catholic patient wrote an appeal for a wooden leg to enable the man to move about. This was published in the Congregationist and read by a Baptist woman whose husband, a Methodist, who had worn a wooden leg, had just died. So the Methodist leg given by a Baptist woman is now being used as a perfectly good interdenominational understanding.—The Christian Advocate, News.

Jap or Chinese.
The eldest son of the mayor of Jeffersonville, who is about nine years old, is a shrewd observer and no doubt makes what his elders say. He can, however, find his own way of expressing himself. He was in a newspaper office a few days ago when an eastern "drummer" came in, showed his wares, and said he would call again. A discussion ensued in the office whether the visitor was a Chinese or Japanese, when Hiram spoke up: "He said he would come back. If he does, he is a Chinese, but if he doesn't come back you can know he is a Japanese." Evidently the Chinese have an enviable reputation in Hiram's judgment, for "truth and veracity."—Indianapolis News.

Ask Me Again.
A few days ago a friend called me up to ask how to make a mint julep, writes Russell Seeds, in the Indianapolis Star. On being assured that he was not joking, but really had the makings, I scented possibilities and sallied in with enthusiasm. I told him how to crush the ice fine and pour it into the tall glass, then put in a couple of sprigs of smashed mint and the granulated sugar and add a stiff thimble of genuine bourbon and shake it up, and then decorate the top with a bouquet of fresh mint and watch until the frost had formed on the glass.

"Thank you so much! Come down some time and we'll have one together."

But do you think I let him get away? On your life, no! They have slipped me that "some time" stuff for the last time. I have seen too many enchanting visions of house parties and week ends fade and die on the waiting list. I thanked him profusely and told him I'd be there in fifteen minutes. And I was!

Divorces and Its Causes.
I think some action should be taken to stop the increase in divorce; the divorce evil seems to be on the increase everywhere. The Parent Teacher's Association at the High School building on Friday night, was well worth seeing and created many favorable comments from the spectators. This demonstration was in charge of Scoutmaster, Wm. H. Harriman.

The exhibit included Wood Collections, Indian Arrow Heads, Carpentry, Moths and Butterflies, Tool Chest, Knot Board, Troop Trophies, President Harding Steamer. The Demonstration of Scout work was carried off by Scouts Winfield Bennett, Harlan Hammond, Richard Crockett, and John Chandler. Signaling, Bandaging, Splinting, Fireman's Lift, Fireman's Drag, Stretcher Making were some of the things demonstrated.

Short talks on Scouting were made by George R. Morton, Pres. Oxford County Council and Executive Perham. Mr. Morton gave a short history of the movement and spoke of its value to the boys. Executive Perham's talk dealt entirely with the various things accomplished by the Scouts of Oxford County during the past 18 months. Scoutmaster Harriman finished with a talk on local scouting.

Explore Ice Caves.
Troop No. 1, Locke's Mills arrived on the shore of Oversee Pond at six o'clock Friday night. Tents were set up and supper eaten. Rain set in and the scouts "turned in." The rain lasting all day Saturday made things bad but did not stop exploration parties and fishing trips. Two more scouts arrived Saturday on their 14 mile hike. The following morning the troop broke camp and started on an exploration hike to the Greenwood Ice Caves. This proved an interesting finishing touch to the trip. Home next.

This report of hike from Troop No. 1, Locke's Mills, Irving Mason, A. S. M. is a credit to the troop and proves as ever that Locke's Mills is a Veteran Hiking Troop "Rain or Shine."

Initiation Services.
At the meeting Thursday night, Troop No. 1, Bethel held an initiation service for two new members. Twenty-four members were "on deck." Scoutmaster Oliver was in charge for the evening assisted by Executive Perham.

The successful finish of the Relay Race was discussed and remarks made in regard to Bethel's successful participation. The Initiation came next with its outstanding features—Christening, Down the Trail to Home Sweet Home, Aeroplane Ride, and Kissing the Book.

Following this part of the program came one better. Scoutmaster Oliver, Chief cook served Cocoa and Doughnuts to the troop. Each scout did his share with warm hearts as a result. Athletic sports followed with a new game introduced that did the evening up brown.

Hold Special Meeting.
Twenty-two First Class Scouts from Rumford and Mexico troops were on hand at the meeting held at the Municipal Building, Rumford, Wednesday night. This meeting, the first of its kind, was in charge of Executive Perham. Scoutmasters Arthur J. Welch and S. E. Street attended.

The following matters were enthusiastically discussed—100 Mile Relay Race, The Round Up, The Spring Rally (held at Dixfield Athletic Field on Friday and Saturday—June 15 and 16), the Wild River-White Mt. Hike (June 18-20), Western Maine Scout Rally—June 30th (held at Auburn), the Oxford County Scout Camp (July 5th-Aug. 10th), the Exhibit at the Oxford County Fair, and the Fall Banquet for First Class Scouts. The necessity for a high standard in Merit Badge work was emphasized with the statement "Do your Merit Badge work 100% or leave it alone."

First Class Scouts "on deck"—Thomas Gregor, E. Budge, P. Jenkins, L. Flannigan, R. Seymour, B. McConaghy, P. Gallant, H. Fernald, C. McLennan, G. Foley, V. Broomhall, D. Newton, S. Anderson, H. Henry, C. Henry, H. Anderson, R. Kero, Tony Fovellie, Gordon Williams, P. Strout, Francis Keyo.

Spring Rally to be Held at Dixfield.
The 1923 Spring Encampment of Oxford County Boy Scouts will be held at Dixfield Athletic Field on June 15 and 16th. This is the Big Spring Rally of the year and bids fair to be a record breaker. Dixfield extends a welcome hand to every scouting town in Oxford County.

This rally comes at the finish of the school year. The official program for the Council Fire on Friday night. Speeches, Eats, Singing etc. will make this affair one to be remembered. Friday afternoon will consist of Registering up and setting up of Tents. All troops possible will bring tents for the overnight stay—the rest will bunk beneath the grand stand in case of rain. Saturday will open with Morning Run, Breakfast, Parade through Dixfield, Athletic Sports, Dinner, Speech Making. The Scouting Program will take up Knot-Tying, Bugling, Fireman's Lift Race, First Aid Demonstration, Stretcher Race, Signaling Race, Cooking Exhibition, Firemaking by Sticks, Message Relay (1/2 mile distance—4 men to a team), Pyramid Building.

Every troop in Oxford County is expected to be well represented at this Rally. Every member possible from the local Scout Boards should be on hand for the Council Fire Friday Night and for the demonstration on the following day. Burn up some gas and oil for Oxford County Scouting. This whole affair is a "free for all" for everyone. The more the merrier—all visitors welcome.

MONEY INTERESTS.
Somersworth Free Press: We hear a good deal these days about the "money interests," "fighting the money interests," etc. Now, getting down to brass tacks, what are the "money interests" of this country? They include not only the big corporations of transportation or industry, not only the financial institutions, but also all who have invested their securities, every person who has money in banking institutions as an investment, everybody who owns a house, a home or a piece of land, everybody who works faithfully at any employment and prudently manages his wages, and everybody who has got anything, or hopes to get something in return for useful service. Not included are those who expect something for nothing, who want to get a good day's pay for a poor day's work, and those who expect to live and prosper without rendering any useful service—a mighty small minority.

There will be a dance at the Grange Hall, Welchville, Saturday evening, May 26. See ad.

The following matters were enthusiastically discussed—100 Mile Relay Race, The Round Up, The Spring Rally (held at Dixfield Athletic Field on Friday and Saturday—June 15 and 16), the Wild River-White Mt. Hike (June 18-20), Western Maine Scout Rally—June 30th (held at Auburn), the Oxford County Scout Camp (July 5th-Aug. 10th), the Exhibit at the Oxford County Fair, and the Fall Banquet for First Class Scouts. The necessity for a high standard in Merit Badge work was emphasized with the statement "Do your Merit Badge work 100% or leave it alone."

First Class Scouts "on deck"—Thomas Gregor, E. Budge, P. Jenkins, L. Flannigan, R. Seymour, B. McConaghy, P. Gallant, H. Fernald, C. McLennan, G. Foley, V. Broomhall, D. Newton, S. Anderson, H. Henry, C. Henry, H. Anderson, R. Kero, Tony Fovellie, Gordon Williams, P. Strout, Francis Keyo.

Spring Rally to be Held at Dixfield.
The 1923 Spring Encampment of Oxford County Boy Scouts will be held at Dixfield Athletic Field on June 15 and 16th. This is the Big Spring Rally of the year and bids fair to be a record breaker. Dixfield extends a welcome hand to every scouting town in Oxford County.

This rally comes at the finish of the school year. The official program for the Council Fire on Friday night. Speeches, Eats, Singing etc. will make this affair one to be remembered. Friday afternoon will consist of Registering up and setting up of Tents. All troops possible will bring tents for the overnight stay—the rest will bunk beneath the grand stand in case of rain. Saturday will open with Morning Run, Breakfast, Parade through Dixfield, Athletic Sports, Dinner, Speech Making. The Scouting Program will take up Knot-Tying, Bugling, Fireman's Lift Race, First Aid Demonstration, Stretcher Race, Signaling Race, Cooking Exhibition, Firemaking by Sticks, Message Relay (1/2 mile distance—4 men to a team), Pyramid Building.

Every troop in Oxford County is expected to be well represented at this Rally. Every member possible from the local Scout Boards should be on hand for the Council Fire Friday Night and for the demonstration on the following day. Burn up some gas and oil for Oxford County Scouting. This whole affair is a "free for all" for everyone. The more the merrier—all visitors welcome.

MONEY INTERESTS.
Somersworth Free Press: We hear a good deal these days about the "money interests," "fighting the money interests," etc. Now, getting down to brass tacks, what are the "money interests" of this country? They include not only the big corporations of transportation or industry, not only the financial institutions, but also all who have invested their securities, every person who has money in banking institutions as an investment, everybody who owns a house, a home or a piece of land, everybody who works faithfully at any employment and prudently manages his wages, and everybody who has got anything, or hopes to get something in return for useful service. Not included are those who expect something for nothing, who want to get a good day's pay for a poor day's work, and those who expect to live and prosper without rendering any useful service—a mighty small minority.

There will be a dance at the Grange Hall, Welchville, Saturday evening, May 26. See ad.

Divorces and Its Causes.
I think some action should be taken to stop the increase in divorce; the divorce evil seems to be on the increase everywhere. The Parent Teacher's Association at the High School building on Friday night, was well worth seeing and created many favorable comments from the spectators. This demonstration was in charge of Scoutmaster, Wm. H. Harriman.

The exhibit included Wood Collections, Indian Arrow Heads, Carpentry, Moths and Butterflies, Tool Chest, Knot Board, Troop Trophies, President Harding Steamer. The Demonstration of Scout work was carried off by Scouts Winfield Bennett, Harlan Hammond, Richard Crockett, and John Chandler. Signaling, Bandaging, Splinting, Fireman's Lift, Fireman's Drag, Stretcher Making were some of the things demonstrated.

Short talks on Scouting were made by George R. Morton, Pres. Oxford County Council and Executive Perham. Mr. Morton gave a short history of the movement and spoke of its value to the boys. Executive Perham's talk dealt entirely with the various things accomplished by the Scouts of Oxford County during the past 18 months. Scoutmaster Harriman finished with a talk on local scouting.

Explore Ice Caves.
Troop No. 1, Locke's Mills arrived on the shore of Oversee Pond at six o'clock Friday night. Tents were set up and supper eaten. Rain set in and the scouts "turned in." The rain lasting all day Saturday made things bad but did not stop exploration parties and fishing trips.

Two more scouts arrived Saturday on their 14 mile hike. The following morning the troop broke camp and started on an exploration hike to the Greenwood Ice Caves. This proved an interesting finishing touch to the trip. Home next.

This report of hike from Troop No. 1, Locke's Mills, Irving Mason, A. S. M. is a credit to the troop and proves as ever that Locke's Mills is a Veteran Hiking Troop "Rain or Shine."

Initiation Services.
At the meeting Thursday night, Troop No. 1, Bethel held an initiation service for two new members. Twenty-four members were "on deck." Scoutmaster Oliver was in charge for the evening assisted by Executive Perham.

The successful finish of the Relay Race was discussed and remarks made in regard to Bethel's successful participation. The Initiation came next with its outstanding features—Christening, Down the Trail to Home Sweet Home, Aeroplane Ride, and Kissing the Book.

Following this part of the program came one better. Scoutmaster Oliver, Chief cook served Cocoa and Doughnuts to the troop. Each scout did his share with warm hearts as a result. Athletic sports followed with a new game introduced that did the evening up brown.

Hold Special Meeting.
Twenty-two First Class Scouts from Rumford and Mexico troops were on hand at the meeting held at the Municipal Building, Rumford, Wednesday night. This meeting, the first of its kind, was in charge of Executive Perham. Scoutmasters Arthur J. Welch and S. E. Street attended.

The following matters were enthusiastically discussed—100 Mile Relay Race, The Round Up, The Spring Rally (held at Dixfield Athletic Field on Friday and Saturday—June 15 and 16), the Wild River-White Mt. Hike (June 18-20), Western Maine Scout Rally—June 30th (held at Auburn), the Oxford County Scout Camp (July 5th-Aug. 10th), the Exhibit at the Oxford County Fair, and the Fall Banquet for First Class Scouts. The necessity for a high standard in Merit Badge work was emphasized with the statement "Do your Merit Badge work 100% or leave it alone."

Sunlight for Sanitation

The following are some of the logical uses for Barreled Sunlight, the glossy white tile like finish paint for making rooms at home more cheerful at very low cost.

Bathrooms Pantry
Kitchens Attics
Stairways Closets
Laundry Kitchens
Nursery Garages

It is superior to other paints for these purposes as it is cheaper than enamel, easier to apply, does not crack or scale, can be washed and is absolutely sanitary as it contains no lead.

Another Thankful Woman

Not long ago a woman on Lamson St., East Boston (Mass.), gave a praise-worthy letter which appeared in newspapers. She mentioned how thankful she was for having been told about a constitution medicine known as Dr. True's Elixir.

Now another resident, Mrs. Rogers, of 108 Falcon St., East Boston, writes: "I still have Dr. True's Elixir, for it surely benefits me; I have a good appetite and eat everything that I want. I could not get along as good as I do if I did not take Dr. True's Elixir. It is surely a wonderful medicine. I never felt any better than now since I took the Elixir."

In East Boston and everywhere else there are women, men and children who, also, can be made better in health by using Dr. True's Elixir, the True Family Laxative and Worm Expeller. A favorite laxative for over 71 years! 40c, 60c, \$1.20.

THE BIG-SIX SPEEDSTER, COMPLETELY EQUIPPED AS ILLUSTRATED, \$1835

\$45,000,000 Worth of Studebaker Big-Sixes in 1922

The public paid more than forty-five million dollars for new Studebaker Big-Six automobiles in 1922, buying more of this model than of any other car selling in the same price field.

In the entire world there were only eleven other automobile manufacturers whose total sale of all models equaled the sale of Studebaker Big-Sixes for 1922, and no other manufacturer sold as many cars of the Big-Six class. In addition to the Big-Six, Studebaker builds the Special-Six and the Light-Six in large volume.

For the first quarter of 1923, Big-Six sales showed an increase of 70 per cent over the same period of 1922, evidencing the growing popularity of this model. Big-Six popularity is the result of Big-Six superiority. Materials and workmanship are unexcelled in any car at any price, and unequaled in any car at the Big-Six price.

With its long 126-inch wheel base, big 4 1/2-inch tires, heavy frame, scientifically distributed load, long Studebaker-made springs, the Big-Six Speedster rides more comfortably than most cars selling at much more money. Its 3 7/8 x 5 motor delivers a world of power, plenty of speed and a quickness of getaway hard to equal.

The price is the result of quantity production.

The name STUDEBAKER is assurance of quality. It has stood for high grade transportation for seventy-one years.

Two extra wheels complete with tires, tubes and tire covers. Trunk and dust-proof cover. Nickel-plated bumpers, front and rear. One-piece, rain-proof windshield. Automatic windshield cleaner and glare-proof visor. Courtesy lamp. Tonneau light with long extension cord. Combination stop-and-tail light. Quick-action cow ventilator. Eight-day clock. Aluminum bound running boards with corrugated rubber mats and step pads. Aluminum kick plates.

A Strange Ride

John and I fitted a small mast and a sail in our rowboat. Then we went out on the lake to try it. Everything went well until a strong wind sprang up. "A storm is coming," I cried. "Make for the shore." But the wind changed at the very moment we went to turn and we scudded off in another direction.

The boat turned at right angles and tipped over on the side but always righted itself again. The wind dropped a moment and we started to row for shore but again the wind foiled us and again we made off in another direction. I looked out onto the lake and saw the white caps on the top of the waves roll at us, then I shouted to John to hold fast and I cut the sail away. In a moment we were turned around by the waves and were going at a frightful pace. Then we struck and were thrown high upon the bank. That's all I remember, for everything went black. The next thing I remembered was that John was bending over and spilling cold water on my face and then a whole hatfull struck me and I rose. Then I found I had broken my arm. John was very much bruised but we managed to get home.

Next morning we came down to see where we had landed and to get the boat onto shore. We found we had got into Dead Mans Bay. We could find nothing but boards on the shore and a box floating in the lake. That noon we found the sail and mast on the shore.

An Unexpected Adventure

John and I fitted a small mast and rigged a sail in our rowboat. Then we went out on the lake to try it. Everything went well until a strong wind sprang up. "A storm is coming," I cried. "Make for the shore." But just then the wind changed and we headed for the middle of the lake. I ran to the sail but it was nailed to the boat and we had left the hammer on shore. We had nothing but a paddle to steer with. John, who was younger was so overcome with fear that he could not do hardly anything. All of a sudden a larger wave wrenched the paddle from my hand, the boat swung sideways to the waves and capsized.

We were both good swimmers and so we swam from under the boat and held on to the side with all our might. On a calm day we might have swam ashore but in the storm it was impossible.

We had been hanging on to the boat for about two hours. The storm which was the worst of the season was beginning to calm down. We were so cold that it took all our energy to hang on. It was growing quite dark, all at once we heard the clug-chug of a motorboat. Then the strong ray of a searchlight shone upon us. I knew at once it was the lifesaving patrol boat.

Half an hour later we were in dry clothes explaining our adventures to the life-guarders. We heard the purring of a large auto and soon father and mother drove up. They had been visiting and had not noticed the storm.

The Secret Post

Phoebe Cobb

I am an old, old stove, and I have lived in the schoolroom for many, many years. During my life I have seen queer things happen. One hot day in June, when the windows and doors were all open I heard a queer conversation between two men. One was very tall and slim and the other was very fat and short.

"Well, now yer got the money what be yer going to do with it?" inquired the fat man.

"Well, as I said before, I used to go to school in this place and I know where there is a secret door in one of the posts in the room, although you wouldn't know it because it is out in the shape of a knot of wood and all you have to do is to press this knot and it will open up," said the other fellow in much better language.

"Just hide it and have it done with before they are on our trail. So they came in and walked up to the post and pressed a knot and sure enough it opened and he put the money in and went out and I never saw either of them again, though I imagine I should have if the following had not happened.

The next day the teacher was going to give a boy a whipping because he had been throwing spit balls. It happened that this boy sat by the post and as he was shrinking away from the teacher he touched the knot and the door flew open and to their surprise a big bag tumbled out. On opening it they found money and bonds and receipts. By the receipts they found it belonged to a rich man that lived down the street and they returned the money to him. But I guess all the boy cared about was that he didn't get his whipping.

"SEE NEW ENGLAND"

As a means of educating motorists in
general to the unsurpassed mountain,
seashore and country scenery the Auto-
mobile Legal Association has inaugu-
rated a "See New England" campaign.

In furtherance of its plans the A. L. A.
announces the release of a series of films,
"The Lure of the Open Road," which
will be shown in many of the leading
picture theatres throughout New Eng-
land. There are four single reels in the
series.

Around this "movie" is woven the
interesting and picturesque story of two
young women motorists who ventured
forth on a motor camping trip of New
England, which brought them as far
north as the Canadian border and to the
tip of historic old Cape Cod. The young
women had many thrills, mostly pleasant
ones, which are depicted in the films.

If you are planning a motor camping
trip or a vacation by automobile to some
spot in New England the scenes in "The
Lure of the Open Road" will help you
make a satisfactory selection. The
mountain, country and seashore scenes
in the films are the most picturesque in
all New England. If you crave excite-
ment you will find it in most unexpect-
ed places. If you love nature, you will
enjoy the close-ups of the woods
and the wild roving countryside. No
matter what your tastes are, you will find
something to please you.

BRYANT'S POND

Given Surprise
A delightful surprise was given the
teacher at the North Woodstock school
when the children hung her an enormous
basket filled with fruit, candy and fancy
cookies.

There was a merry time for the
children to see "teacher" run (only fif-
teen to catch), but her courage was good
and she caught them all. Mr. Hayes, our
superintendent, happened to be there and
took in the fun. Miss Bryant was much
pleased and after thanking the children
for their kindness the afternoon's work
was resumed.
